Agenda

Welcome Message, Introductions & Program Update

Josi Hartley, Renewable Energy & Energy Efficiency Program Manager, Alaska Energy Authority

Guest Presenter

Professor Pinggen Chen, Ph.D., Tennessee Tech University, Rural Reimagined Principal Investigator

During this technical session, Professor Pinggen Chen, Ph.D., will present about the Rural Reimagined project. Funding for this project is provided by the Department of Energy and is aiming to develop an EV ecosystem in rural and low-income areas in central Appalachia. One major component of the program is to allow drivers to borrow an EV for 2-6 weeks at no cost. Participating states include Kentucky, Ohio, Tennessee, Virginia, and West Virginia.

Join Professor Chen to learn more about how other parts of the US are working to engage rural EV users.
